October 12, 2026

TO: **All Potential Bidders**

SUBJECT: **Intersection Improvements**

Bid Ref. **#27-024**

Bid Opening Date & Time: **August 27, 2026 @ 2:30 p.m.**

ADDENDUM NO. 1

The items contained in this addendum are added to and/or deleted from and become part of the Bid Documents, Project Manual, Drawings and other proposal documents for the above-referenced Invitation to Bid. Bidders **must acknowledge receipt** of the Addendum on the Bid Form and also on the Addendum Acknowledgement Form, which is a required Appendix to the Bid Form, when the bids are submitted.

QUESTIONS AND ANSWERS

1. Special Instructions §5 requires bidders to possess a valid State of Georgia General Contractor license or Utility Contractor license. O.C.G.A. § 43-41-17(d) provides an exemption from Chapter 41 licensing for persons qualified by the Georgia Department of Transportation to perform specified roadway construction and services incidental thereto, including performance of similar work for other owners. Given that the scope of this solicitation consists primarily of traffic signal and associated roadway improvements, would the City consider revising §5 to recognize contractors qualifying under O.C.G.A. § 43-41-17(d) as eligible bidders, provided that all portions of the work subject to separate Georgia trade licensing requirements are performed by appropriately licensed contractors? If so, please issue an addendum clarifying the acceptable contractor qualifications under §5. ***Answer: The City has reviewed the bidder's request regarding the contractor licensing requirements in Special Instructions §5 and O.C.G.A. § 43-41-17(d). Contractors qualified by the Georgia Department of Transportation (GDOT) may be eligible to perform work for other owners under the exemption provided by O.C.G.A. § 43-41-17(d), provided the work falls within the scope of the statutory exemption. Accordingly, the City will recognize this exemption to the extent applicable to the work included in this solicitation. Bidders relying on this exemption must provide documentation of their current GDOT qualification and demonstrate that the proposed work falls within the scope of the exemption. All work requiring separate licensing under applicable Georgia law must be performed***

by appropriately licensed contractors. All other requirements of the solicitation remain unchanged. Bidders are responsible for ensuring compliance with all applicable federal, state, and local laws, licensing requirements, and contract provisions.
